### Work Experience

#### Medrating LLC – Product designer

JANUARY 2021 - MAY 2021

I was engaged in support and development of the website prodoctorov.ru - the main company product, which monthly traffic is about 17 million users.

My responsibilities were: creating layouts, UI kit development, prototyping, usability testing, user interviews, research, implementation quality control, collaborating with product manager & stakeholders.

#### Softlex LLC – UX/UI designer

JUNE 2020 - JANUARY 2021

My responsibilities mainly consisted of creating wireframes, prototyping and visual design, implementation quality control and collaborating with the team, as well as creating simple vector graphics and poligraph product design. Served as a mentor to an intern designer.

#### Freelance – UX/UI designer

JANUARY 2020 - JUNE 2020

Collaborated with a freelance developer on a different small business projects: landing pages on Tilda, layouts and prototyping in Figma.
